

ADVANTAGE PHARMACY

2008 PREFERRED DRUG LIST

Advantage Pharmacy lets you, physicians and pharmacists choose medications that work best for you. Following is a list of commonly used drugs covered by your plan. This list is not all inclusive. Please refer to the Web site listed on your member ID card for access to information on all available drugs. When you use these preferred drugs, you get the most out of your pharmacy benefit while keeping costs to a minimum.

Your health plan covers prescription drugs at three levels. The amount you pay out of pocket depends on the tier from which you and your physician select your medication. If your physician prescribes a more expensive drug, it's a good idea to ask him or her if a less expensive but equally effective drug is available. Since there may be more than one drug appropriate for your condition, we encourage you to use generic or preferred brand-name drugs when possible to help manage your prescription costs.

Tier 1 Generic drugs	\$	Lower cost; same quality and effectiveness as the brand-name drug
Tier 2 Preferred brand-name drugs	\$\$	More expensive than a generic; equally effective as, but usually less expensive than, non-preferred brand-name drugs
Tier 3 Non-preferred brand-name drugs	\$\$\$	Highest cost, which means your share of the cost will also be higher

IMPORTANT NOTE

Advantage Pharmacy does not cover any drugs or drug categories with over-the-counter equivalents or alternatives (e.g., proton pump inhibitors, non-sedating antihistamines, etc.), nor does it cover insulin pens or cartridges, lifestyle medications (e.g., weight loss medications, infertility drugs, erectile dysfunction agents, etc.) In addition, some plans may not cover some types of drugs such as contraceptives, even though they may appear on this list. Please refer to your Summary Plan Description for details on your specific plan, including drugs that are covered or not covered, drugs that require prior authorization, and quantity limits. You may be required to satisfy a deductible (separate from your health plan deductible) before your copay takes effect.

QUESTIONS?

This list is subject to change. Please use this drug list as a guide. If you have any questions, please call Member Services at the number listed on your ID card.

EXCLUSIONS

The following is a list of common lifestyle medications and drugs with over-the-counter (OTC) equivalents or alternatives. Advantage Pharmacy generally does not cover these medications; however, benefits may vary. Please refer to your Summary Plan Description for details on your specific plan. This list may not be all inclusive and is subject to change at any time.

EXCLUSION LIST	
THERAPEUTIC CATEGORY	DRUG
Fertility	Bravelle Cetrotide Chorex-10 Chorionic gonadotropin (generic) Clomid Clomiphene citrate (generic) Crinone Fertinex Follistim AQ Ganirelix acetate (generic) Follutein Gonal-F Luveris Novarel Ovidrel Pergonal Pregnyl Profasi Repronex Serophene
Growth Hormones	Genotropin Humatrope Norditropin Nutropin/AQ/Depot Protropin Saizen Serostim Tev-Tropin
H2 Blockers (heartburn/ulcer medications)	Axid (OTC) Cimetidine (OTC) Famotidine (OTC) Nizatidine (OTC) Pepcid (OTC) Ranitidine (OTC) Tagamet (OTC) Zantac (OTC)

EXCLUSION LIST	
THERAPEUTIC CATEGORY	DRUG
Hair Loss	Propecia Rogaine
Impotence / Erectile Dysfunction	Caverject Cialis Edex Levitra Muse Viagra
Insulin	Insulin pens and cartridges
Non-Sedating Antihistamines (allergy medications)	Allegra/Allegra D Clarinetx/Clarinetx-D Claritin (OTC)/Claritin-D (OTC) Fexofenadine Loratadine (OTC) Xyzal Zyrtec/Zyrtec D (OTC)
Obesity	Alli (OTC) Meridia Xenical
Proton Pump Inhibitors (heartburn/ulcer medications)	Aciphex Nexium Omeprazole (OTC) Prevacid Prilosec (OTC) Protonix
Wrinkles / Photo Aging	Avage Botox Eldoquin Lustra Renova Retin-A Solage

EXAMPLES

The following is a list of common Tier 3 drugs and the Tier 1 and Tier 2 preferred alternatives. Remember, to help manage prescription costs, always try to use generic (Tier 1) and preferred brand-name (Tier 2) whenever possible.

	NON-PREFERRED	PREFERRED ALTERNATIVES		NON-PREFERRED	PREFERRED ALTERNATIVES
ADD & ADHD	Adderall	amphetamine salts, methylphenidate/er	EYE CONDITIONS	Alrex	fluorometholone
	Adderall XR	amphetamine salts, methylphenidate/er		Elestat	Acular
ALLERGY	Daytrana	oral methylphenidate/er	INFECTION	Optivar	Acular
	Focalin	dexmethylphenidate, methylphenidate/er		Zylet	neomycin/polymyxin/dexamethasone
ASTHMA	Focalin XR	dexmethylphenidate, methylphenidate/er	INSOMNIA	Amoxil	amoxicillin
	Ritalin LA	methylphenidate/er		Augmentin	amox tr / potassium clavulanate
BLOOD PRESSURE	Strattera	dexmethylphenidate, methylphenidate/er	MENOPAUSAL SYMPTOMS	Augmentin XR	amox tr / potassium clavulanate
				Ceftin	cefuroxime axetil
CHOLESTEROL LOWERING	Beconase AQ	fluticasone nasal	MIGRAINE	Ery-Tab	erythromycin
	Flonase	fluticasone nasal		Keflex	cephalexin
CONTRACEPTION	Nasonex	fluticasone nasal	PAIN	Omnicef	cefdinir
	Rhinocort Aqua	fluticasone nasal		Suprax	cefprozil, cefuroxime axetil, cephalixin
DEPRESSION	Accolate	Singular	PSYCHOSIS	Zithromax	azithromycin
	Asmanex	Qvar		SKIN CONDITIONS	Ambien
DIABETES	Azmanex	Qvar	THYROID CONDITIONS		Lunesta
